MARYVILLE, MO., JUNE 8, 1915

NUMBER 15.

## EVENTS FOR THE SUMMER

**Coburn Players' Second Appearance—  
Prices for Tickets — Free  
Lectures Listed.**

This summer the students of the Fifth District Normal School, Maryville, are to have the opportunity of hearing some things of value in addition to the work they get in the regular classes.

At present four lectures and the Coburn Players are engaged.

All except the Coburn Players are free to the students and general public.

The Coburn Players will be at Maryville, June 28-29, and will give the following program: Monday evening June 28, "The Yellow Jacket;" Tuesday matinee June 29, "The Imaginary Sick Man;" Tuesday evening, June 29, "A Mid-Summer Night's Dream."

The prices for tickets to these performances are as follows: For the three performances 240 tickets at \$2.00 each, and the remaining ones \$1.50 each; for a single performance, 240 tickets at \$1.00 each, and the remaining ones at 75 cents each.

The Coburn Players were here last year, and the audiences were so well pleased, that a return engagement was at once booked.

"In addition to their annual appearances at the foremost educational institutions throughout the United States, other important events in the bookings of the Coburn Players have been their performances on the grounds of the White House, the Gloucester Pageant in honor of the President of the United States, the Walpole Pageant in honor of the Governor of New Hampshire, and the annual benefit for the Building of Fine Arts in Bar Harbor."

Dr. W. C. Bagley, Dean of School of Education, University of Illinois, and now working with the Carnegie Foundation, will be here the week beginning June 8. Dr. G. D. Strayer of Teachers College, New York, will lecture each day during the week beginning June 21. President Payne of Peabody College for Teachers, Nashville, Tenn., will give one or more lectures some time during the quarter, and Supt. J. A. Whiteford will be here for one week. Mr. Curtis famous for his work on the play ground expects to be present July 30, to take part in the play-day picnic as well as to deliver a lecture on playgrounds and play.

### Memorial Address.

On Sunday, May 30, a crowd of about seven hundred people gathered at the First Methodist church to hear the Memorial address which was given by Harry A. Miller, head of the department of Reading and Public Speaking. Of the crowd forty-two were old soldiers, the remnant of the once large body of Civil War veterans, living in Maryville.

In his address Mr. Miller made three points as elements contributing to the national greatness of a country. First, patriotism of the people as a whole. Second, the ideals of statesmanship. Third, our humanitarian ideas of principle.

In the course of his address Mr. Miller said "I believe the patriotism of both men and women in this country is as great today and as true as in the sixties. We should be Americans now and forever. He then spoke of the danger of the immigration problem to this country. This he said is a peril never before equalled in America.

Mr. Miller then pointed out that our public schools have the keeping of the patriotism of the coming generation. "Our public schools are the bulwark

(Continued on page two)

### Improvements.

New window shades have been hung in the Assembly Hall, which adds much to the appearance of the room and the comfort of the occupants.

Owing to the increase in the attendance of the summer quarter, 230 new lockers have been installed, which makes a total of 530 lockers in the cloak rooms.

The new drinking fountains, which were presented to the school by the Senior class of '15, are being installed on the first floor of the building, on either side of the main entrance. These fountains are equipped with the latest improvements in the fountain line and will be a much needed addition to the comfort of the Normal students.

Miss Hazel Vandervoort is acting pianist at Assembly, since the resignation of Miss Kemp.

Miss Jane Gladstone, a graduate of the Senior class of '15, will have charge of Latin in the Grant City High School for next year.

Miss Elsie Dunn, of Jameson, Mo., a graduate of N. W. M. N. of 1913, spent several days of last week visiting her friends at the Normal. Miss Dunn had charge of the Primary Department at Newton, Iowa, last year and has been re-employed for next year.

### New Faculty Members.

Two new members have been added permanently to the faculty. S. E. Davis, head of the department of education, is a graduate of Missouri University and has studied in Columbia University and also in German Universities. He organized the present teacher-training system in the High Schools of this state, and was teacher training inspector and assistant state superintendent for some years.

George Palfreyman Jr., has been chosen as permanent assistant manual and physical training instructor. Mr. Palfreyman was a Senior at the University of Missouri, but owing to sickness failed to finish this spring. He has arranged, however, to finish for his degree by correspondence. Mr. Palfreyman comes highly recommended as an athlete. He was captain of the basketball team at the University of Missouri for two years. He was also a member of the base ball team for three years playing both short stop and second and would have made the football team had sickness not prevented. Mr. Palfreyman was also captain of the Benton High School basketball team when it won the Missouri Valley High School championship, while Mr. Hanson was athletic director at that place.

### Training School Full.

The Training School of the Normal opened for its four weeks session with a large enrollment. Ninety-two children are in attendance. The Kindergarten in charge of Miss Hutt is especially well attended, having twenty-two children. All grades have been organized except the third for which there was no demand. A varied course of study is being followed. The problem curriculum as taught during the winter is being used to some extent and opportunity is also being given for certain children to make up work in which they are deficient. The following student teachers are doing the work in the Training School: Maude Compton in the eighth grade, S. E. Richeson in the seventh, Anna Faris and Amy Callahan sixth, Della Nash fifth, May Corwin fourth, Nellie Wray and Gladys Criswell second. Miss Jane Hinote teaches sewing to the sixth, seventh and eighth grade girls, George Palfreyman Jr., teaches Manual Training to the boys of the same grades and H. B. Schuler has charge of all the music in the Training School.

Miss Amy Barrett, a former student, who taught the Star school last year, will have charge of the Mt. Vernon school northwest of Skidmore, for the coming year.

## SPRINGFIELD TRACK MEET

**Four Representatives From Maryville—  
New Record For High Jump  
Made by Ryan.**

The inter-collegiate meet was held at Springfield on May 15 and 16. Our school was represented by a team of four men, Ryan, Searlett, Quinn and McClintock. They were accompanied by H. P. Swinehart, who coached the team. The preliminaries were held on Friday afternoon. Nine schools were represented: William Jewell, Tarkio, Drury, Central, Missouri Wesleyan, Westminster, and Maryville, Kirksville and Springfield Normals. Ninety-five individuals were entered and some of the teams were quite large.

Our men were entered for the following events: Ryan, high jump and hurdles; Searlett, discus and high jump; McClintock 220 and the quarter and half mile; Quinn running broad jump.

In the preliminaries Ryan qualified for the high jump and the hurdles, winning his heat in the hurdles over the William Jewell man. Searlett qualified for the high. McClintock qualified for the 220; no preliminaries being held in the half and quarter. Orlo Quinn failed to qualify for the broad jump.

In the finals on Saturday afternoon, Ryan ran a good race in the high hurdles and would have easily placed had he not been disqualified for knocking over four hurdles.

In the half mile we met with some hard luck. McClintock was in the lead to within fifty yards of the rope. Then the Missouri Wesleyan man gradually passed him. He kept a close second but fell exhausted when within a few yards of the line. He still had a good chance for third and did cross the line third, but was disqualified because he was helped to his feet by a bystander. The time for the half mile was two minutes and six seconds.

The 220-yard dash followed, but McClintock wasn't able to run.

The larger teams had an advantage over us here, because they had fresh men for this event.

In the high jump Ryan made a new record for the inter-collegiate meet at 5 ft. 9½ inches. He won first place at 5-8. He far out-classed the Central man, who won second, and the William Jewell representative who won third. Searlett won fourth place. We have reason to be proud of Ryan, for his

### PRIVILEGES.

In another column will be found a list of some special events to take place during this summer quarter. There will, no doubt, be some who will let these events come and go without either seeing or hearing them. The Coburn Players will perhaps attract the most attention and secure the largest audiences because of two things: first, the word "Players" suggests entertainment, and people love to be entertained; second, it costs something besides mere attendance to hear this company, and people seem to take a greater interest in things that have a fee attached to them. However, there is much more to be gained by listening and seeing the Coburns than the mere pleasure of one or two hours entertainment. Students and citizens should plan to attend all three of these performances if possible. What about the lectures mentioned? They may not entertain, but they will have values which should be seized for future use. Some students think they need to study history or algebra or some other text book lesson during the hour of one or more of these lectures. Do they? The text book and its message is at hand at any hour, but the lecturer and his message are with us at the appointed time only. There is a personal touch a lecturer gives in his message, when one hears him, that cannot be obtained by simply reading what he has said. All students should, if possible, hear each lecture of the quarter.

All persons have the same amount of time at their disposal. This time seems to give greater values to some than to others, and 'tis largely because of the plans for the use of the time. You owe it to yourself and to the community in which you are to live the coming year to use the time from now 'till August 5, in such a way as to get the best returns possible.

Plan to use these special events.

### TRICKS OF MODERN WARFARE.

As a rule, every war calls forth the invention of new methods and machines by which the largest number of men may be killed in the shortest possible time. The present European war does not seem to have departed from this general rule.

Of course, everyone has read of the workings of submarines, torpedoes, and aircraft, but there are some inventions, and methods being used which a great majority of the people know nothing about.

The German Zeppelins have been a great menace to the health of the French and English and these in turn have been trying their inventive skill and the result is a number of small inventions which are proving very effective. One of these is an explosive dart which is to be dropped from a lighter air craft on the Zeppelin. This dart is filled with explosives and provided with two hooks which catch in the cloth of the air ship which pulls a detonator, thereby releasing the charge. The other is a small weapon known as a flechette, which resembles a modern lead pencil in size and shape, but which is made of steel with a very sharp point. This is so balanced as to keep it from whirling in the air and when dropped from an air craft into the ranks of the enemy it causes great havoc. In one instance one of these small weapons dropped from an aeroplane struck a soldier on the shoulder and going through his body traversed the length of his leg and emerged at the foot.

Perhaps the latest invention in the way of fire-arms is a rifle which shoots around a corner. This rifle has a long but curved barrel. This enables the soldier to sit quietly in the trenches and hold his rifle so the curve will come about the edge of the trench and mow down the enemy without being harmed himself. These rifles are aimed by means of a periscope, consisting of two glasses placed on the gun barrel.

The latest invention in explosives has been accredited to the French. This is a gas known as turpinit, taking its name from its inventor. This gas is fired in shells from a cannon and is exploded by the vibrations of the field piece. When these shells explode the gas spreads over a circle of about 100 yards in diameter and every living creature within this circle is instantly killed. It contains a chemical which paralyzes some of the vital organs, thereby rendering life impossible. Nothing has been found as a defense against this terrible gas.

For action on the water Germany has invented a small short range torpedo. These can be made about half as cheap as the ordinary torpedo and at short range are just as effective.

But the nations are not always making offensive weapons for it sometimes becomes necessary to make machinery with which they can defend themselves. For this purpose large tractor plows are used to dig the trenches. This plow cuts a furrow twenty inches deep and twenty inches wide, thus making

a good breastwork in a short time. Formerly trench digging was a laborious and slow process, but today an army may provide shelter on short notice.

### PHILOMATHEAN PROGRAMS.

June 3, 1915.

Music.....Gladys Jenkins  
Ghost Story.....Ivah Barnes  
Reading.....Edith Callahan  
Methods and Implements of Modern Warfare.....Henry A. Miller  
Music.....Pearl Wilkerson

Herbert Francisco, of Pattonsburg, Mo., a graduate of the class of '09, spent Thursday and Friday of last week at the Normal. Mr. Francisco was superintendent at Coffey, Mo., last year. He contemplates attending the Normal during the Summer quarter.

### MEMORIAL ADDRESS.

(Continued from page one)

of our country, even though the average salary of the school teacher is but \$375 per year."

He then spoke of the ideals of statesmanship warmly, commending President Wilson's skill in handling the present crisis. "We are at a danger point now where every citizen should sit still and not 'rock the boat.' But if the time should come, however, let us each be ready to insure the safety of the stars and stripes."

In the course of his address Mr. Miller said, "We are met here today in honor of the men living, and in memory of the men dead, who marched out in the morning of life to honorable battle. I have no apologies to offer for any encomiums I may give to these brave men. Indeed, language is too barren to express adequately my respect and admiration for them. But from time immemorial the soldier has placed his bivouac in the van of peace and the strains of martial music have gone before the anthem. We as a mighty Republic have not escaped this peculiar yet forcible law of civilization."

Mr. Miller then spoke of the generosity of General Grant at the close of the Civil War which has never been surpassed in all history; How he supplied the ragged Confederate soldiers with food and clothing and let them take their horses home with them so they might till their fields in the best way.

Next he spoke of the troubles of President Lincoln during those stirring times, telling how he sat in the White House and looked out at the Confederate flag waving in the breeze across the Potomac. That was a time to try a man's soul, yet Lincoln guided the ship of state safely through though torn by the dissensions in his own cabinet.

In closing Mr. Miller said, "Today we should be thankful that the contrast of fifty years makes the picture of the gloom of war seem like a dream or a myth. Today we are at peace. Our country is filled with plenty. The North and the South are united. They are one and one forever. Let us hope that this spirit of a oneness in our own nation and of peace abroad remain always the leading ideal of our Republic."

### SPRINGFIELD TRACK MEET.

(Continued from page one)

jump of 5-9½ would have won at the Missouri Valley meet which was held a few days later.

William Jewell won first place in the meet. We did not place, but certainly made a good showing. Next year the meet is to be held at Tarkio, and doubtless a large team will be sent from here.

### Former Student Visits.

Mrs. Bruce Clymens, of Hopkins, Mo., was a visitor at the Normal, Saturday, June 5. Mrs. Clymens was Miss Bessie De Vore of Maryville, and was a student here last year.

### The Silkworms.

Several hundred silk worms have been enlisted as part of the teaching force of the summer school. They are being used by A. J. Cauffield of the Geography Department. They are proving quite an attraction. It is becoming quite a task to feed them as they are in the larva stage and consume all the mulberry leaves they can get. During the summer their four stages of insect life will be illustrated. The egg, larva, cocoon or pupa and adult. At present they are passing through the larva stage. They may be seen casting their skins, for the outside skin does not grow with the body, but is shed as it becomes too small. Some of the larvae are almost large enough to enter the cocoon stage. The silkworms are of value not only from a standpoint of nature study, but they are of considerable economic interest. One of the leading imports of the United States is silk in the forms of cocoons, raw silk and waste. In 1913 the total value of the silk imported was almost 85 million dollars.

### Simpson Makes World's Record.

Robert Simpson of Bosworth, sophomore in the University of Missouri, and stellar performer at the Northwest Missouri Inter-High School association meet at Maryville in 1913, is now a co-holder of a world's record. He covered the 120-yard high hurdles in the Missouri Valley track meet held at Columbia, Saturday afternoon, May 29, in 15 seconds flat, a feat performed only once, by Fred Kelly, the Olympic star. Bib Simpson also came back a few minutes and broke the conference record over the low hurdles, clearing the sticks in 24 4-5 seconds. Simpson also won the broad jump and Bernard Niedorp of St. Joseph, star of the Maryville meet of 1913, won the 442-yard dash. Missouri won the meet with 59½ points and Ames was second with 26½ points.—Maryville Tribune.

### Teacher's Examinations.

The regular June teacher's examinations were held on Friday and Saturday of last week.

The Nodaway county teachers had their examinations at the Business College. About ninety teachers took the examinations there. Miss Rose Collins and Mrs. O. C. Hanna assisted Mr.

Cooper at the Business College.

One hundred three teachers from the other counties took the examinations at the Central High School. Misses Goldie Airy, Edith Christy and Clarice Hartman assisted.

Six people took the Reading Circle examinations for renewal of their certificates and for Normal credit in Reading Circle work.

The next regular examinations will be held on the first Friday and Saturday in August.

### Is Librarian.

Adelbert McMillen, a former student here, is to be the head librarian of Rochester University, Rochester, New York, the coming year. Mr. McMillen will receive a salary of \$1500 per year with a raise of \$100 each year for five years, and will have a month's vacation each year. Mr. McMillen is a graduate of the University of Missouri and is completing a course in library training at Albany, New York, where he has been the past two years.

### Normal Pins.

The new pins for the Normal graduates are now in the office. These pins are very unique in appearance, being a copy of the Normal tower.

Other Normal pins can be had in various styles and sizes. Some represent the entrance of the building, others, entrance and columns. These pins are circular in shape and can be obtained in either sterling silver or rolled gold. Brooches can be obtained in rolled plate or sterling silver, representing the entrance of the Normal, also silver watch fobs, representing the entrance of Normal.

Miss Edith Collins, has been re-employed to teach in the Grammar Department at Quitman, Mo., next year.

### FOR SALE—

OLD TRUSTY INCUBATORS, — 3 SIZES — DELIVERED FREIGHT PAID TO YOUR STATION, WHEREVER IT MAY BE — WRITE FOR MY FACTORY PRICE.

E. L. ANDREWS  
FACTORY AGENT, Maryville, Mo.

### H. A. Miller at New Hampton.

H. A. Miller delivered the commencement address to the graduates of the New Hampton High School on the evening of May 22. He reports an enthusiastic audience and an intelligent class of 17 young people.

Mr. Miller was also to have addressed the graduating class at Fillmore but owing to weather conditions he was unable to fulfill his appointment at that place.

### Mo. Wesleyan Grads Enroll.

Five graduates of Missouri Wesleyan College came to Maryville Thursday, June 3, to enter the Normal. They are, Misses Irene Rutledge, Faye Fawcett, and Mary Carson, and Messrs. O. B. Sheldon and J. F. Taylor. The young women are members of this year's class at that place. Mr. Sheldon is a '14 graduate and is principal in the consolidated school at Jameson. He will have charge of manual training and agriculture the coming year. J. F. Taylor, who has been at Braymer, Missouri, the last three years, has been elected as superintendent of the Mt.

Vernon school in the southern part of the state for next year.

Miss Bessie Stoner and Forest Larmer, who expect to finish their courses at Missouri Wesleyan in 1916, also are students here this summer. Mr. Larmer was a classmate of Ray McPherron, a Normal senior, in the Stanberry High School.

Miss Faye Townsend spent Saturday and Sunday with relatives in Savannah, Mo.

Otto Riley, a Normal student, will teach the Star school, three miles east of Skidmore, next year.

### Sham Battle on Normal Park.

A crowd of about three hundred people gathered on the Normal Campus on the evening of June 2, to witness the sham battle between the "Blues" and the "Reds" of Company F, which took place at 9 o'clock in the grove southwest of the Normal. The "Blues," under command of Captain J. K. Ross, and a detachment in charge of Lester Bennett, finally succeeded in routing the "Reds," commanded by Lieutenant Arch Ledgerwood.

The crowd was not able to observe much of the actual maneuvering, scouting and fighting, but from the reports and flashes of fire from the infantry arms, there was some lively fighting done. The "Red" army consisted of nine men, while the "Blue" division consisted of sixteen. More sham battles are being planned for the near future.

### Miss Kaucher to Columbia.

Miss Dorothy Kaucher, assistant teacher in the English Department for

the Summer quarter, left Thursday, to attend the commencement at Columbia University, where she receives her "A. B." degree. Miss Bertha Daniels, also assistant in the English Department has charge of Miss Kaucher's classes during her absence.

### Y. W. C. A. Extension Work.

The last program given in Y. W. C. A. was a study of "The Eight Weeks Clubs." This is a club whose object is to promote summer extension work of the Y. W. C. A. The girls who go to their homes for the summer organize these clubs among their girl friends.

There are only four requirements of the club, namely: The girls must have a good time, there must be at least six consecutive meetings during the summer, they must learn something and they must do some piece of community service.

The following members of the Normal Y. W. C. A. have promised to take up work in their home towns for the summer. They are Misses Francyl Rick-

enbrode, Vivian Seat, Charlotte Mal-lory, Annetta Loranee, Georgia Mat-thews and Lula Attrill.

### Y. W. C. A. Reception.

The girls of the Y. W. C. A. gave a reception in the ladies parlor, Monday afternoon June 7, from 2 o'clock until 5, for all the ladies of the school.

The object of the reception was to get the girls acquainted with each other. The social committee of which Miss Blanche Criswell is chairman, served punch. The music for the afternoon was furnished by the victrola.

The reception committee pinned each girl's name on her so that formal introductions were unnecessary.

### Kemp—Mutz.

On Sunday morning, May 23, Miss Larue Kemp was united in marriage with Harry Mutz. Only the parents of the bride and groom were present at the ceremony and immediately Mr. and Mrs. Mutz left for a trip through south Missouri. Miss Kemp is the daughter of Mr. and Mrs. S. H. Kemp of this city. She is a graduate of the Conservatory of Music at this place and for the past few years has had the supervision of the teaching of music in the Normal Training School here.

Mr. Mutz is a graduate of the Fifth District Normal of the class of 1908 and for several years was in charge of the Normal supply store.

These young people will be at home to their many friends after July 1, at 1018 North Main street.

### Mrs. Beauchamp Dead.

Mrs. William Beauchamp, mother of Mrs. W. A. Rickenbrode, died Tuesday morning at 8 o'clock, June 1, at her home in Olathe, Kansas. Funeral services were held Thursday afternoon, June 3, at Olathe. Mr. Rickenbrode left Wednesday evening to attend the funeral. Mrs. Rickenbrode has been in Olathe for the past week.

### Grace Lewis to Exposition.

Miss Grace Lewis, of Hopkins, Mis-souri, who formerly attended school here, left May 22, in company with her aunt, Mrs. L. E. Watson, of Pickering, Missouri, for an extended trip through the west. They will attend the expo-sition and will stop off at Denver, Salt Lake City and other points of gen-eral interest.

### To Teach in King City.

Miss Barbara Millan, a 1915 grad-uate, has been employed to teach the third and fourth grades in the King City, Missouri, school. Miss Millan's home is in King City.

### Old Grads Back.

It is pleasing to note that so many of the former graduates of the school are back taking post-graduate work this summer. This goes to show that although these people have completed the required course they still recognize that the Fifth District Normal has plenty in its course of study by which they may profit.

Those students who have completed the course and have at present en-rolled for the summer quarter are: Hazel Perry, C. H. Allen, Ora Eckles, Nellie Wray, Neva Airy, Lawrence A. Zeliff, Gladys Dougherty, Jane Hinote, Beatrice Sewell and Silas Skelton. It is reported that the following will be in for work in a few days: Egbert Jennings, Iva Ward, Helen Todd, Edith Christy and Clarence B. Perry.

### Base Ball.

We expect to have several good games of ball this quarter. The rains in the spring term prevented the play-ing of several games which had been scheduled. These games will be played this quarter, and the season tickets are good for admittance to all of them. Al-though some of our best men did not come back for the summer term, yet there is a prospect for a good team, for several good ball players have en-tered this quarter. The team is to be selected soon, but a line-up cannot be given as we go to press. Arrangements are being made for a double-header with Conception in the near future. Plans are also under way for a base-ball tournament, to be held among the men of the school. It is probable that there will be four teams.

### Tennis.

Arrangements are being made for ex-tensive work in tennis this summer. Students have signed up to play as early as four o'clock in the morning and as late as seven at night. Each student wishing to play has handed in a list of his vacant periods when he can play and a definite time is assigned to each. Five minutes are allowed to change players at the end of each period. If the proper people are not on the court at this time, their period is forfeited and the court is open. Instruction is given to all wish-ing it by Walter Hanson.

Miss Batrix Winn spent the few days between the spring and summer sessions visiting with Miss Alma Hotch-kiss in Columbia, Missouri. On her re-turn home Miss Winn stopped in How-ard county for a short visit with Miss Mabel Rawlins who was formerly one of her classmates.
